

# Introduction

**ADECO** Energy India Pvt. Ltd was established in the year 2007. ADECO has started electrical engineering and contracting since inception and has executed many projects of shifting/conversion of electrical utilities for HVPNL, BBMB & DHBVN in Gurugram and National Capital Region.

With the passage of time ADECO is now concentrating in other diversified activities also and has made its presence prominent in the following verticals while catering to the needs of different segment of clientele:

- ▲ **Extra High Voltage Turnkey Projects**
- ▲ **Integrated Facility Management**
- ▲ **Refurbishment Contracting**

The expansion of our client base year after year, is a testimony of ADECO's performance and its ability to offer value addition in its services.

## Director's Message

**ADECO** was started to convert a dream into reality – a dream that I had to excel in my field of expertise. The dream was to be at the leading edge of the Electrical Engineering industry. Fortunately, I foresaw the changing scenario in India that would lead to advances and developments in the field of Electrical Engineering. ADECO was established with the aim of offering sustainable, value-based services to its clients. ADECO has always focused on building and retaining long-term business relationships with its

Although ADECO is an established EHV electrical engineering solution provider, it has also made its presence prominent in other diversified activities like Integrated Facility Management solution provider and also refurbishment contracting of office and commercial spaces catering to the needs of various mega corporates and MNCs. I continue to look to the future with hope and determination – Hope that we shall be a leading Integrated Facility Management solution provider in the country; determination that we shall achieve this aim through continuous innovation and following best industry practices.

Our vision, corporate culture, information system and an exceptionally innovative workforce, facilitate and empower us to achieve our goals with optimum quality assurance. – **K.P. Joshi, Director**
